CASSETTE STOVES, FREESTANDING STOVES & INSERT STOVES

# Welcome to the San Remo Collection

The San Remo collection offers a comprehensive range of wood, multi fuel and boiler stoves designed and expertly constructed by master craftsmen, to withstand extremes of heat offering high efficiency heating solutions. We understand that your home is a reflection of your personality and tastes, so we have created the San Remo collection to offer you a choice of four distinct collections with their own unique style.

With the use of high temperature glass combined with well researched San Remo combustion technology, this range of stoves delivers consistently clean glass for unrestricted viewing of the fire. With a range of different heat outputs, you can heat the smallest room through to large open-plan spaces, whilst creating a stunning focal point in your room.

## CASSETTE

The San Remo Cassettes are available in either steel or glass fronted styles, providing a sleek contemporary look.

## INSERT

The San Remo Insert stove offers a highly affordable, easy fit solution which can be easily installed into an existing fireplace.

## FREESTANDING

The San Remo Freestanding range offers a more traditional style. It works perfectly within an inglenook as a freestanding appliance.

## BOILER

The San Remo Boiler stoves offer a full central heating system. They come in two different styles, insert or freestanding.

# San Remo

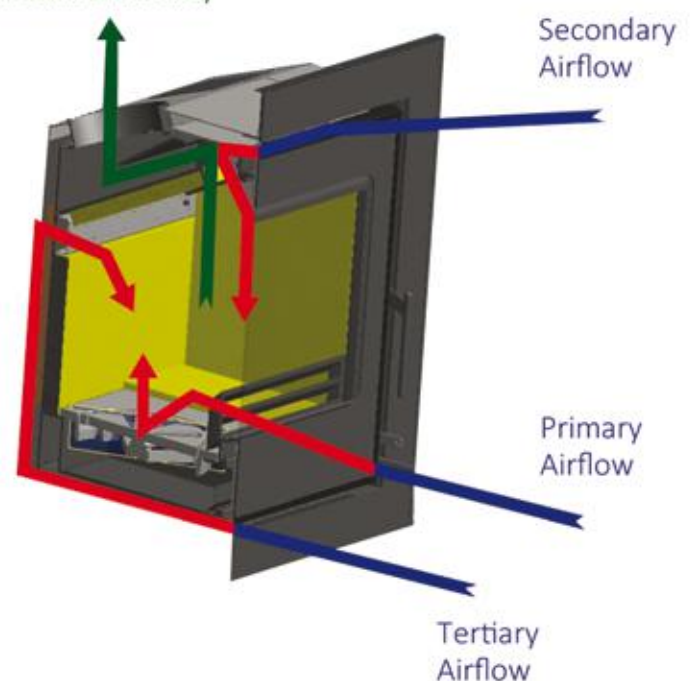

## Cassette Stoves

The stoves within the cassette range are beautifully designed contemporary stoves. Available in 3 different heat outputs with a choice of either steel or glass trim in either 3 or 4 sided options for installing in fireplaces or a more contemporary wall mounting.

- 🔥 CE approved up to 80% efficiency
- 🔥 Extra large picture window
- 🔥 Tertiary air system for increased efficiency
- 🔥 Sleek, contemporary design
- 🔥 Available in 5kW, 8kW & 11kW models
- 🔥 Available in steel or glass fronted designs
- 🔥 Available with 3-sided and 4-sided trims
- 🔥 Convection air for added heat
- 🔥 Available with outside air option
- 🔥 Easy to install

Our San Remo cassette stoves offer a revolution in combustion technology. With a minimum of effort they burn more efficiently making them as environmentally friendly as possible. They are simple to operate and give the most attractive and natural flame pattern possible. Introducing pre-heated, secondary air into the firebox encourages efficient combustion of any excess hydrocarbons in the smoke. This 'cleanburn' process greatly increases the combustion efficiency of your stove and significantly reduces the amount of unburnt particles going up the chimney.

Double Baffle Efficiency

# San Remo

## 5kW Cassette Stove

Heat Output  
Up to 4.9kW

Efficiency  
Up to 80.2%

The 5kw cassette wood\* burning stove comes in two distinct styles, with options of either a glass or steel fascia. The stove is DEFRA approved for burning wood in smoke controlled areas. This full depth stove is manufactured from steel and has a superior viewing window to maximise the beauty of a roaring fire. The stove is available with either three or four sided trims as pictured.

\*A multi fuel adaptor kit can be purchased as an optional extra for multi fuel burning.

San Remo 5kW Steel Stove with 4 Sided Trim

San Remo 5kW Glass Stove with 3 Sided Trim

## 11kW Cassette Stove

Heat Output  
Up to 11kW

Efficiency  
Up to 78.1%

The 11kw cassette wood\* burning stove comes in two distinct styles, with options of either a glass or steel fascia. The stove is DEFRA approved for burning wood in smoke controlled areas. This full depth stove is manufactured from steel and has a superior viewing window to maximise the beauty of a roaring fire. The stove is available with either three or four sided trims as pictured.

\*A multi fuel adaptor kit can be purchased as an optional extra for multi fuel burning

San Remo 11kW Glass Stove with 4 Sided Trim

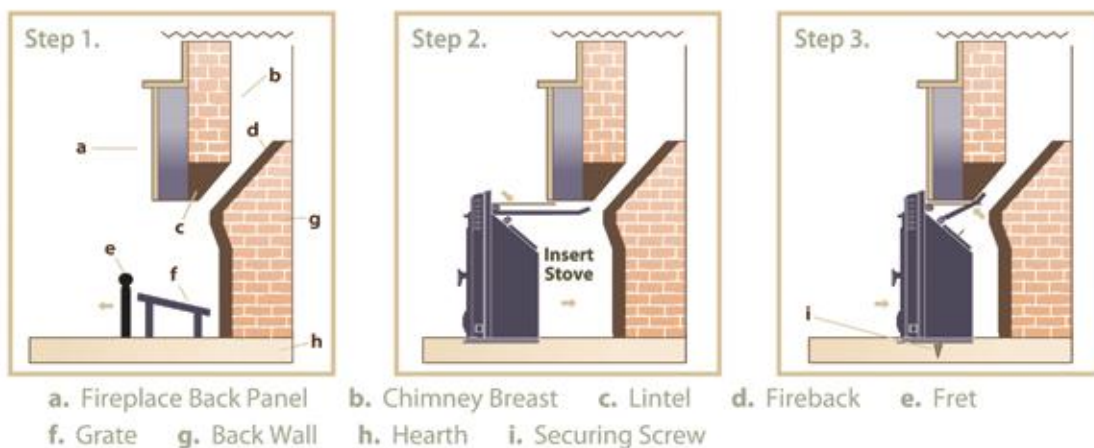

## 5kW Insert Stove

Heat Output  
Up to 5kW

Efficiency  
Up to 77%

The 5kW insert stove available in matt black or enamel can be installed into a standard solid fuel fireplace opening. This can greatly increase the efficiency with the stove delivering up to 77% efficiency. Open fires can be as low as 20% efficient, with the majority of heat escaping up the chimney.

- Reduce your carbon footprint
- Reduces heat loss up the flue when unlit
- Full cast iron construction
- Airwash technology to keep glass clean
- Large ceramic glass door
- Easy removal for flue cleaning
- Fits into existing 16" standard fireplace opening
- Increase your BER rating by 10.3%

## Freestanding Stove

Heat Output  
4kW/6kW/8kW

Efficiency  
76%/81%/72%

This traditional looking freestanding multi fuel stove is available in 4, 6 and 8kw outputs. It is manufactured from quality cast iron with a large window for unrestricted viewing of the fire. If you are looking for something a little different why not consider adding the matching log store providing an interesting storage space below the stove. Available for our 4kW, 6kW and 8kW stoves. The stove comes complete with a multi fuel grate as standard.

- 🔥 Riddling system
- 🔥 Secondary burn technology
- 🔥 Inner cast iron combustion chamber
- 🔥 Primary and secondary air regulators
- 🔥 Airwash technology
- 🔥 Large ceramic glass door
- 🔥 Top or rear flue outlet
- 🔥 Adjustable leg (for levelling only)
- 🔥 Ashpan with tool

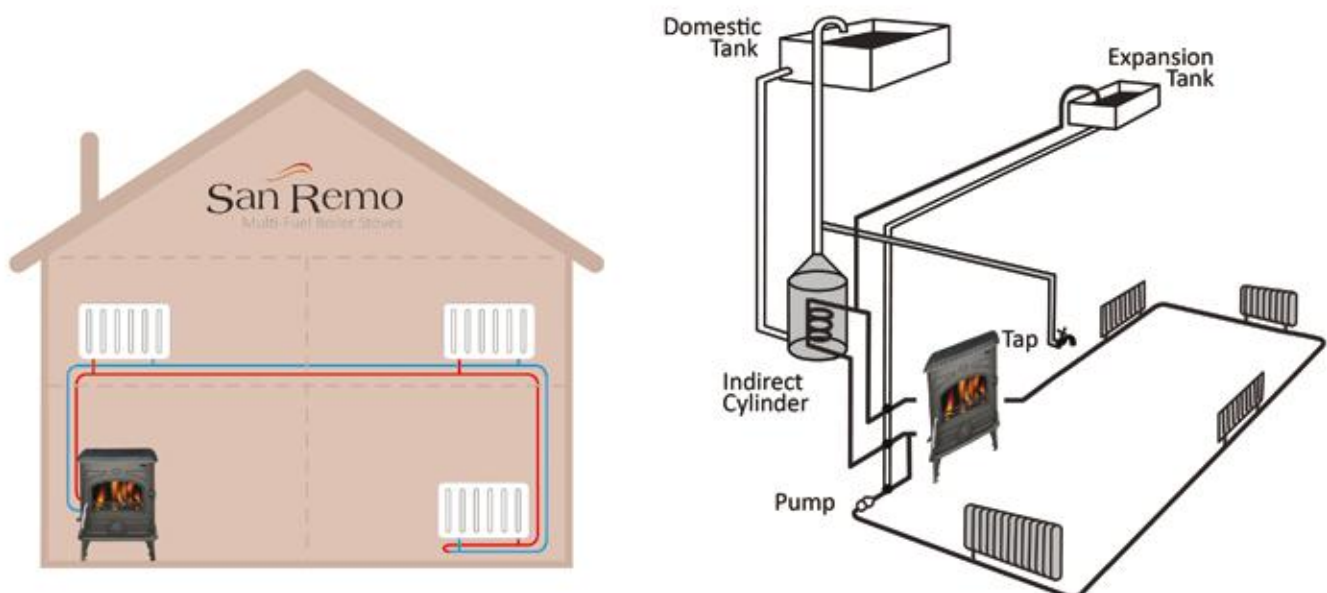

## San Remo Freestanding and Insert Boiler Stoves

Our San Remo boiler stoves are designed specifically for those wishing to run a full central heating system and provide hot water by burning wood as fuel. As well as providing a focal point in your room this 'real fired' heating system can provide a constant heat source and reduce condensation. Our boiler models include all of the great features of our freestanding range, and offer high efficiencies.

- 🔥 Thermostatically controlled
- 🔥 Secondary burn technology
- 🔥 Inner cast iron combustion chamber
- 🔥 Primary and secondary air regulators
- 🔥 Airwash technology
- 🔥 Large ceramic glass door
- 🔥 Top or rear flue outlet
- 🔥 Adjustable leg (for levelling only)
- 🔥 Ashpan with tool

	Heat output to water	Heat Output to Room	Number of Radiators*	Efficiency
San Remo 8kW Boiler	5.4Kw	3Kw	up to 6	77.7%
San Remo 13kW Boiler	8.2Kw	4.8Kw	up to 9	76.2%
San Remo 21kW Boiler	11.8Kw	9.1Kw	up to 12	73.3%
San Remo 18kW Insert Boiler	12.1kW	5.6kW	up to 13	80%
